Re: Formal Approval of Form and Amount of Replacement Reclamation Surety, Crystal Peak Minerals Corporation, Sevier Dry Lake Project, M/027/008, Millard County, Utah

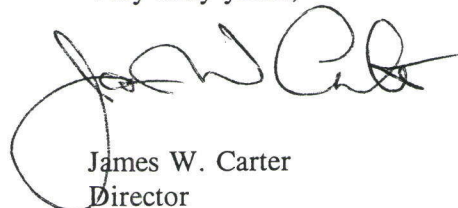

Dear Mr. Sowers:

On January 25, 1995, the Board of Oil, Gas and Mining formally approved the form and amount (\$2,000) of replacement reclamation surety for Crystal Peak Minerals Corporation's Sevier Dry Lake Project. The \$2,000 replacement reclamation surety is in the form of an Investment Deposit Account (#23-4149566) issued by Texas Commerce Bank. This surety will be held to secure the cost of supplemental reseeding efforts for the acreage that has not yet met the 70% revegetation standard.

Enclosed please find the old original Board Contract for \$59,000, dated August 1, 1989, which is hereby released. Also enclosed are original copies of other previous bonding instruments which are no longer in effect for this project.

Thank you for your time and cooperation in finalizing this permitting action. Please call me should you have any remaining questions in this regard.

Very truly yours,

James W. Carter  
Director
